

The W3Z Hotline

Vol 2

Issue 1

Jan 1999

Hey Everybody!!!

Welcome to a New Year at W3Z!

You may have noticed that we have been making a lot of changes lately. One is that we are in the middle of completely remaking the Web Site.

Our plan is to move it to a new and bigger server, so you will be able to access everything. Our issue of the hotline will now come as a text file until we are able to re-do the web pages for it.

We are now going to feature a different broadcast or feature per week, most of them will be from our archives. We will leave the previous weeks show on our web site as well, encase you didn't get a chance to listen to it the first week.

Basically it will be **This Weeks Feature** and **Last weeks Feature**.

We are adding new features to the our site as well. First we have **Aol Instant Messenger** installed and we can be contacted through our screen name **w3zhotline**

If you are not a member of AOL you can still download a **Free** copy of **Aol Instant Messenger** from the **Aol Home page** - <http://www.aol.com>

Also we will be using our **W3Z Live Cam**, So from time to time you will be able to see what is happening in our station.

Later we will be installing **Cu-See Me**, Video Conferencing, so you can see us **Live** in our station. We will probably add **Real Video** as soon as we can set it up and find a sponsor who has a server.

Live Broadcasts!!! will resume as soon as we are able to get some sponsorship and help with a server. If you know anyone that has a server and would like to advertise on our Site. Please send us an Email to : w3zhotline@aol.com

In the meantime, we will start New Broadcasts in Feb, which will be uploaded on a weekly basis.

Some of the new shows will include:

The All Request Show

80's FlashBack!!!

Rock Profile

Artist Feature.

Other shows will be added later.

Lets make this a great year at W3Z!!!!!!

Please feel free to distribute this newsletter to anyone who may be interested. And visit our web site at:
