### Broadcaster Comments

(\*\*\* W3Z is being updated at this time\*\*\*) (\*\*Please check our website for more information\*\*) (----->www.w3zhotline.com<-----) The main type of music that I play is Rock. Sometime it is New Rock/Alternative Rock. Othertimes it is Classic Rock (70's) and I even play 80's as well. I have a variety of different shows like: The RockMachine (Playback of the Best Rock!!), 80's Flashback, W3Z Totally Wired!!!, and even W3Z Specials. Also we feature Live concerts and Events sponsored by House Of Blues Online (HOB). You Can catch me Live mainly on the weekends and sometime late at night. I have at least 6 hours of programming which playback on its own. You can check out some of our Featured Broadcasts from our site and listen to them On-Demand. Also talk to me when I am Online. Check my website for more information and the latest updates <http://www.w3zhotline.com>
